

KTL 0172

STANDARD SPECIFICATION FOR Billy Backer Modular Coupling System

2024-02-21
CONFORMITY RECOGNIZED BY
KYTOR TESTING LABORATORIES

Modules shall be considered in compliance when adhering to the coupling system dimensions. A minimum of two coupling locations shall be required per side with exception to modules intended only for use as an end anchor.

A third coupling is optional where necessary. All other geometry, including overall length, width, and height shall be at the discretion of the designer. Dimensions are in millimeters.
